

Immokalee Lodge 353 Members

(2523 Members as of October 4th, 2014)

The lodge is missing all official records from before 1968 and from 1989 to 1994. Therefore, very little information is known about members from those years except for what has been obtained from oral history, issues of the *Owl Hoot*, and recently found members.

From what appears to be approximately 1968 to approximately 1987, Immokalee Lodge kept the records of its members on the official cards issued by National for that purpose. Some cards are missing for persons who are known to have been members (even lodge chiefs) during this period. According to Ben Andrews, past Lodge Chief, the current member cards were kept in a separate book, which was last seen at the scout office in the 1990s. Most likely, the book and the cards of those members who were active when the card system was discontinued were destroyed or lost.

This list is a combination of all lodge records plus additions from other sources.
